Re. Planning Commission Agenda Item No. G-2 for May 19, 2011

Members of the Planning Commission:

I am writing on behalf of Don and Sandy McCalla and David and Leann Benvenuti and Mr. Al Dubrow. Mr. and Mrs. McCalla reside at 105 Linda Isle. Mr. and Mrs. Benvenuti reside at 106 Linda Isle. Mr. Dubrow resides at 104 Linda Isle. The McCallas', the Benvenutis', and Mr. Dubrow's homes are on Linda Isle directly across the water from 3-Thirty-3 Waterfront. They are heavily impacted by the noise already generated by the 3-Thirty-3 restaurant and bar, and especially by the noise from the outside dining area. They strenuously oppose the application to extend the hours for outside dining. The noise is already intolerable, though my clients accept it because in 2007 they agreed to the compromise closing time of 9:30 PM. However, because of the already excessive noise 3-Thirty-3 cannot satisfy the necessary findings for approval of the extended operating time. I draw your attention to the NBPD memorandum, which is Attachment No. 3 to the Staff Report. On page 2 there is a table showing that there were 99 "call/incidents" during the period March 30, 2010 through March 30, 2011. They are all calls for disturbances arising from drunkenness, fighting, noise and other crude behavior. Into the late night hours 3-Thirty-3 is NOT an elegant high-end restaurant. It is a single's bar and the boorish conduct it generates should be kept inside or moved to another location. The time for using the outside dining area should not be extended to 1:00 AM or to any other time beyond the current closing time of 9:30 PM.

You Denied the Requested Approval in 2007. When the application to approve the outside dining area was considered by you in 2007, the staff recommendation was to deny the application due to the noise that would negatively impact nearby residences. (Staff Report for Agenda Item No. 2, June 7, 2007.) In particular, staff determined that the required finding that

“The establishment, maintenance or operation of the accessory outdoor dining will not, under the circumstances of the particular case, be detrimental to the health, safety, peace, comfort and general welfare of persons residing or working in the neighborhood or injurious to property or improvements in the area” could not be made. (*Id.*, at pages 8-9.)<sup>1</sup> Staff was absolutely right and you agreed. My clients and 3-Thirty-3 ultimately agreed to a compromise that would allow the outside dining area to go into operation, constrained by noise attenuating devices and a requirement to close the outside dining area at 9:30 PM. The only things that have changed since then is the proof in actual practice that the noise attenuating windows and canvas roof do not work and, as discussed further below, the addition of docks with to-go alcohol service that further increase the noise, in addition to creating obvious hazards from drunk boaters. Therefore, findings F-1, F-2 and F-3 in the current staff report cannot be justified.

The McCallas, the Benvenutis, and Mr. Dubrow are entitled to respectful consideration of the impact on the quality of their lives. My clients are frankly puzzled at what appears to be a level of deference to the owner of 3-Thirty-3 and a corresponding level of indifference, if not outright contempt, demonstrated in the past by some City officials toward them. It is as if commercial land users occupy a superior position over mere residents. The McCallas, the Benvenutis and Mr. Dubrow are tax-paying citizens who have rights to peace and quiet. Those rights are not theoretical. They are embodied in various express provisions in the City’s own General Plan and Municipal Code. And yet, 3-Thirty-3 has been allowed to ignore various General Plan policies and Code provisions, particularly with respect to limits on interior noise levels.<sup>2</sup> At the hearings in 2007 my clients were told by one planning commissioner that if they didn’t like the sound of drunks screaming obscenities at 2:00 in the morning they should close their windows. My clients know from actual experience over the past 4 years that closing their windows does not block the noise. They would be regularly awakened and have a night’s sleep ruined. They would be utterly unable to have their grandchildren spend the night without going through a detailed explanation of the mating habits of drunk aging baby-boomers. But more important, why should my clients have to close their windows on a hot summer night? To accommodate vulgar drunks? To accommodate the applicant’s profit motive? Are they second class citizens? Do YOU have to close YOUR windows out of deference to rude and inconsiderate neighbors?

The Ongoing Noise Is Substantial and Violates the policies of the General Plan as well as the NBMC. My clients compromised substantially when the current owner of 3-Thirty-3 obtained his last CUP amendment in 2007. Out of respect for the deal they made at that time they have refrained from complaining about the noise emanating from the outside dining area up to 9:30 at night. However, despite my clients’ choosing to honor their deal and not complain about that noise, the noise has been substantial. The supposedly noise attenuating glass and

---

<sup>1</sup> See NBMC section 20.82.050.

<sup>2</sup> See, General Plan Noise Element, Table N3 and NBMC sections 10.26.005, 10.26.025 and 10.26.030.

canvas roof simply do not work. And to be clear, 3-Thirty-3 is not just a restaurant. It is a singles' bar. After 9:30 PM a singles' bar is all that it is. The noise coming from the outside dining area and from the parking area at closing time consists of loud shouting of obscenities and sexual cat-calls. It is not trivial. It is impossible to sleep with that level of noise. With the current closing time for the outside dining area of 9:30 there is no interference with normal sleep times. However, if the outside dining area is open past 10:00, it will definitely and dramatically impact my clients' right to peace and quiet in their own homes.

Drunken Boaters. An added source of noise arises from the installation of new docks subsequent to 3-Thirty-3 obtaining their last CUP amendment. In the past 3-Thirty-3 actually advertised alcohol for boaters. Now, in addition to drunken revelers on the outside deck and in the parking lot, there are drunken revelers staggering up and down the pier directly opposite my clients' homes. 3-Thirty-3 and the City are apparently prepared to deal with the potential liability arising from encouraging drunken boating. But, the McCallas, the Benvenutis, and Mr. Dubrow are not prepared to deal with the noise and vulgarity it generates. Nor should they have to deal with it. The disturbance up until 9:30 is bad enough. It should not be permitted to continue any later than that.

The NBPB Memorandum. The Memorandum from the NBPB dated April 4, 2011 is puzzling. (Staff Report, Att. 3.) It was obviously written with at least some input from the applicant. Why would the NBPB write that 3-Thirty-3 "provides a high quality menu in a relaxed, but elegant atmosphere"? (Staff Report, Att. 3, p. 1.) The memorandum is based in part on self-serving statements from the applicant. "After several discussions with Mr. Reuter it appeared as though he took reasonable steps to mitigate the noise on the docks . . ." The only reason the noise on the dock or the outside patio have recently declined is the winter weather. The noise always declines in the winter. It always becomes intolerable again in the summer. The memorandum includes a table with objective data showing that there were 99 "calls/incidents" during the period March 30, 2010 to March 30, 2011. (Staff Report, Att. 3, p. 2.) They are all calls arising from public drunkenness, noise, DUI's, fights, and noise. Is this evidence of "a relaxed, but elegant atmosphere"? 3-Thirty-3 is not an "elegant" restaurant. It is, at least after 9:30 PM, a single's bar generating boorish behavior that should be moved to another location.

Impact on Property Values. Another issue of concern to my clients is the obvious impact on their property values. If they sold their homes they would have to disclose that the new owners would be confronted by shouted obscenities and vulgar sexual displays into the late night hours. Their homes certainly would not be suitable for families with young children, or for anyone at all with sensibilities more refined than those of a drunk porn star.

The McCallas, the Benvenutis and Mr. Dubrow have attempted to be good neighbors. The owner of 3-Thirty-3 has said in the past that if the McCallas and the Benvenutis and Mr. Dubrow did not want to put up with noise from commercial development, they should not have bought property where they did. He has it exactly backward. My clients lived in their current homes for at least 15 years before 3-Thirty-3 moved in. During all of that time the space where

3-Thirty-3 is now was occupied by commercial users and none of them caused any disturbance. The most recent occupant prior to 3-Thirty-3 was a restaurant named The Yankee Tavern. During all of the years that The Yankee Tavern was there my clients did not make even one noise complaint. The McCallas, the Benvenutis and Mr. Dubrow are NOT being overly sensitive, nor do they simply like to complain. If the owner of 3-Thirty-3 did not want to have to respect the rights of his residential neighbors, then he should have leased property elsewhere. He is the intruder, not the McCallas and not the Benvenutis and not Mr. Dubrow.

Conclusion. Given 3-Thirty-3's ongoing noise violations and disruption of the neighboring residential community, you cannot make the necessary findings to approve this application. It should be flatly denied. In fact, the City should instead require additional noise studies for the operation to continue even to 9:30 PM and should flatly prohibit the sale of "to-go" alcohol to boaters.

Very truly yours,

Frank W. Battaile

MAY 18 2011

CITY OF NEWPORT BEACH

Re.Planning Commission Agenda Item No. G-2 for May 19, 2011

To whom it may concern:

My wife Sandy and I have lived at our present address, 105 Linda Isle, for the past 22 years.

During the first approximately 15 years of our residency on Linda Isle the Yankee Tavern Restaurant occupied the space where the 333 Waterfront Restaurant is currently located, directly across the narrow channel from our home. The distance between their building and our home is only 200 feet.

During this 15-year period the Yankee Tavern never once caused a noise problem that required assistance from city staff or the police department.

Since 333 Waterfront Restaurant arrived in our neighborhood, excess noise has been a nonstop issue for adjacent homeowners located at 104,105 and 106 Linda Isle.

Beginning in 2003 or 2004 the noise issue involved excessive noise generated in the parking lot and waterside smoking areas.

While resolution of this problem will never be perfect we with City Staff help were able to negotiate a solution which required moving the Valet and Smoking activities to an area in front of restaurant which greatly improved the problem.

Shortly after this initial encounter with the 333 Waterfront Restaurant noise issue we were suddenly confronted with what we were told was a fully approved application for an External Dinning Deck permit lacking only a final noise study.

This surprise development required that we, the affected homeowners once again quickly martial resources to try to have some input into the final design of the structure and the development of conditions of use.

This effort required engaging legal council and a sound engineering firm to adequately represent our interest. This was time consuming and expensive.

The time required from initial notification of the application and final approval of the negotiated plan with conditions, took about 1-1½ years from September of 2005 to final approval in June 2007.

Resolution No. 1724 is the result of 1 1½ years of hard negotiations and hearings to arrive at a fair resolution of proprietor and homeowner concerns, neither side getting everything it wanted.

An issue that gets lost in the discussion is that we as homeowners never ever tried to make the case that the proposed outdoor dinning deck was not an appropriate use given its close proximity to our

existing residential homes. This given the abuse we are experiencing make's us wish we had made this case.

The outdoor dinning deck only opened for business in May 2010, which establishes that the outdoor dinning deck has only been in operation for one high impact summer season.

I submit to you that if you analyze the complaint logs of both Newport Beach Code Enforcement and Police Department you will find most of the complaints were logged by the three impacted homes on Linda Isle and that all or certainly most of these complaints occurred during high impact summer season beginning in May 2010 and ending in September 2010.

I personally called Code Enforcement so many times that I was called by Code Enforcement officer Matt Cozyland and asked to please call the Newport Beach Police directly to report noise issues at 333 Waterfront so that a black and white could be dispatched to validate my complaints.

My complaints included:

1. Windows and roof ports being open after 10:00 PM.
2. Windows being open after 7:00PM
3. The use of amplified music.
4. Continued service after 10:00 PM.
5. Excess noise generated by patrons.
6. Private parties.

All the infractions listed above are expressly prohibited under the conditions of use of Accessory Outdoor Dinning Permit No. 2007-001.

The bottom-line for my wife and I is that given our experience to date it would be impossible for us to have the quiet enjoyment of our home that we have a right to if the hours of operation of the 333 Waterfront Restaurant Outside Dinning Deck are extended to 1:00 AM Daily.

The reason is that there is no way to attenuate the building such that noise coming from the dinning deck would be acceptable during hours it is permitted and certainly not during the hours being applied for by 333. The fact of the matter is that many times during last summers dinning deck inaugural, noise generated from the deck exceeded anything a reasonable person should be expected to accept and I am sure exceeded the City of Newport Beach Noise Ordinance. If we as homeowners could afford to keep a continuous noise monitoring system in place I am sure you would find that even now there are, and will be many occasions during which noise generated from the dinning deck exceeds the current City noise ordinance.

The existing closing time of 9:30 PM is reasonable, allowing people in the adjacent homes to go to bed without being constantly awakened by loud noise being generated from the dinning deck.

I am also sure that our property values will be negatively impacted if this request is granted.

In closing my wife and I ask that you save us from this unreasonable request to extend the operational hours for the 333 Waterfront Restaurant Outside Dinning Deck.

Please vote NO on this request to extend operational hours to 1:00 AM in the morning.

Thank You

Donald and Sandra McCalla

CITY OF NEWPORT BEACH

Planning Commissioners:

It has been brought to my attention that the restaurant 3 Thirty 3 is applying for a permit to extend their hours of operation on the patio. I frequently walk over from my residence on Linda Isle and have a late night dinner. I would prefer not to have to dine in the bar with the younger people, and cannot figure out why the fully enclosed patio is not being utilized in the evenings. In the summer time it does not even get completely dark until 9:00 pm., and we then decide to have dinner.

I have eaten on the patio many times after 8:30 and been told that I must "hurry and finish" because they are supposed to clear the area by a certain time, which makes absolutely no sense to me because even when the patio is full the only thing you can hear is quiet conversation. I know several of my neighbors have complained to the management about keeping it open later, but they say there is nothing they can do about it.

For the benefit of all the people in Newport Beach, especially those that can WALK to the restaurant and who prefer NOT to eat before 9:00 pm on some evenings, please allow them to serve dinner on their beautiful deck until they close the restaurant.

Sincerely,

Bill Piercey

**To Whom it may Concern:**

**My business is located just down the street from 333 and we dine there quite often. There are many times, especially during the summer that we do not get a chance to eat before 9:00pm. As you are aware it is still light out until 8:30pm and we have been told by the hostess's at the restaurant that we cannot sit on the patio.**

**I have no idea why they are not allowed to seat people on their outside dining area, it has windows all the way around and the bar is on the inside. My wife and I like to sit in front of the fireplace and enjoy a quiet dinner overlooking the bay. It has been a big frustration for us and I understand that they are trying to get it approved so they can stay open later. PLEASE allow them to serve food late into the night so that we do not have to eat junk food on our way home.**

**Thank You for your help,**

May 18, 2011

To Whom It May Concern:

I am an owner/resident at 98 Linda Isle and am in favor of the 3Thirty3 Restaurant being allowed to have their patio dining hours be extended to serve dinner until 1:00am.

I enjoy being able to walk over to the restaurant for an evening meal on the patio with my family and friends. The extended dining outside should be permitted as the water location is unique and lends itself to a very pleasant atmosphere.

I am familiar with Sol restaurant's outdoor area and 3Thirty3 Restaurant's patio design already lends itself to be more favorable. I believe that the 3Thirty3 Restaurant will keep in compliance of the normal sound regulations for the city.

Thank you,

Jimmy Smith  
75 Linda Isle  
Newport Beach, CA 92660

Thursday, May 19, 2011

City of Newport Beach,

I am a very frequent customer at 333 restaurant, and eat there at least twice a week. I have been dining on the outside deck since the day it was built. My wife and I walk over there usually after the kids have been fed and are doing there homework.

Unfortunately, we are usually informed by the hostess that we will have to cut short our stay because they need to close that part of the restaurant. For the life of me, I CAN NOT figure out why that is necessary. They have the windows closed everytime I have ever been there, I am assuming because there is a strong breeze that comes straight down the channel, and it would be quite cool. I have yet to see the roof opened up, but I am told that it is opened sometimes during the day.

It is of great concern of mine to try and have the restaurant be able to serve dinner or simply have a glass of wine after "normal" dinner hours. Not all of us are able to eat by 8:30 - 9:00 at night regularly, and it is the only place that has late night dining close by. They do a spectacular job of policing the place, and usually have two to three guys making sure that everyone behaves.

I have noticed people exiting the restaurant next door where they get somewhat rowdy, and I have never seen any door people ever. Those people sometimes then proceed down to the docks and get on there boats. Unfortunately I think that any noise or problems might be misdirected, as it pertains to the 333 patio.

I sincerely hope that you will allow the dining portion of this fine restaurant to be able to service the surrounding community late into the evening. The area has two restaurants, a gas station with a late night convenience store, a car dealership, and a full shopping center in the immediate area. The last place I would worry about any noise are some older people having dinner in a completely enclosed area.

Sincerely,  
  
Jimmy Smith

Don Christy Jr.  
# 72 Linda Isle  
Newport Beach, CA 92660

Planning Commissioners:

It has been brought to my attention that there might be a resolve in the very frustrating situation of dining on the outdoor patio at 3 Thirty 3. I am a long time resident of Linda Isle and enjoy eating out a lot more than most people. I was very excited when the construction of the patio was completed; we finally had a place on THIS side of the harbor that we could eat, (somewhat) outside and enjoy the water view which is why we live in Newport.

I was very upset, and it took quite some time to get used to being asked to leave while having dinner. Apparently the fully enclosed patio needs to be vacated by 9:30 PM and they are very strict about it.

During the summer when we dine out almost 5 nights a week, we enjoy going over to 333 to watch the sunset which, as you know, can be 9:00 at night! I have eaten on the patio probably 50-60 times and have NEVER heard any noise louder than the waterfall.

I have dined on many occasions when the patio is full and we had to wait for a table. We usually wait outside so they can find us since they have no paging system and the inside bar sometimes gets full as well. You can not hear ANY sounds emanating from inside the building, even if you are standing on the mezzanine, directly outside the front door.

If you have not already done so, I ask that you take a few minutes and stop by at their busiest hour and check out the patio. You will find about eight tables of people quietly having a conversation, the loudest noise you will possibly hear is a semi-truck barreling down the Coast Hwy.

I ask that you allow them to serve dinner until late into the evening so that all of us that are in walking distance, especially those that have a few cocktails (I am not one of them), have SOMEPLACE to go and enjoy a nice meal after nine o'clock. Please don't make Newport like C.D.M. that rolls up the sidewalks at 8:30.

Sincerely,

Don Christy Jr.
